Chief Executive CY Leung promised to appoint the Chief Secretary for Administration and the political reform trio to have dialogue with the Hong Kong Federation of Students (HKFS), yet allowed thugs to attack the protesters the very next day. This is no different from suppressing citizens who strive for democracy.

On October 3, the peaceful protesters were attacked by violence, but the police did not enforce the law though witnessing the thugs hurting the civilians. This is literally giving support to brutality, murdering the freedom of assembly and freedom of speech of Hong Kong people. HKCTU is in extreme anger and hereby strongly condemns the police for tolerating violence and being negligent towards their duty. We strongly demand the police to arrest and prosecute the thugs.

Today, there were a large number of people of unknown background gathered at the Mong Kok occupy area. It is believed that over a thousand members from organizations like "Caring Hong Kong Power" and Voice of Loving Hong Kong screamed, cursed at and attacked the protesters at the scene. At that time very few police were there to support, nor did they stop the attacks. Many unarmed students, workers and citizens were hurt by the thugs. There was even a female student being sexually assaulted and the materials of the protesters got destroyed maliciously.

As the working class, while striving for democracy, we also believe in engaging in civil disobedience in a loving and peaceful manner. We hereby appeal to all Hong Kong citizens and the international society to:

- 1) support the students, workers and citizens in the Occupy Movement
- 2) urge CY Leung to stop using violence and tolerating violence to suppress the peaceful protesters, and to uphold the freedom of assembly and speech of Hong Kong
- 3) urge the police to instantly investigate the thugs who were organized to attack the protesters and give an explanation to the public
- 4) urge the Standing Committee of the National People's Congress to withdraw the fake universal suffrage proposal, and the Hong Kong Government to re-launch the consultation on political reform and implement a genuine universal suffrage
