International Viewpoint

International Viewpoint available in PDF format

- News from around the world -

Publication date: Monday 11 April 2011

Copyright © International Viewpoint - online socialist magazine - All rights reserved

We are able to resume our service of sending a PDF of each monthly issue to readers who subscribe to this service.

We know that some readers like to print out each issue to be able to share them with others who are not able to access the magazine online, or keep them in that format for reference purposes.

After a period where we did not have the resources to do this we are pleased to be able to resume this service as from January 2011. You can download the pdfs here :

[January 2011.](#)

[February 2011.](#)

[March 2011.](#) This latter is in two parts, the magazine and a special supplement including all the material on Libya.

If you want to receive the PDF link every month by email, please subscribe to this service in the section opposite.
